

Is your QuickBooks file struggling with loads of old data?

Are you tired of a slow response to every report request?

Does your system hang or crash while QuickBooks is processing?

**INTRODUCING...**

## DATA FRESH<sup>©</sup> FOR QUICKBOOKS<sup>®</sup>

Data Fresh is a speedy service offered by Accomplished Accounts to create a new working QuickBooks data file. Your new QuickBooks data file allows you to still compare past financials. Instead of just archiving or condensing, we create a new file with your outstanding transactions. The service we provide:

- **Saves you time** - no more wasted time waiting for reports or changes to the file
- **Saves you money** - no need to spend days re-keying data
- **Improve Productivity** - don't spend time waiting for systems reboot and file rebuild
- **Generate the reports you want in a FLASH!**

### How it works

#### In 3 easy steps

1. You send us your existing QuickBooks File
2. We create your new data file
3. We send your new file back to you within 2 days

#### Frequently Asked Questions

*Will I be able to access my past data?* Yes. Retain your old file on your system so you can access specific details if you need to. However, your past year yearly total will be in the new file so you can compare previous year profit and loss or balance sheet.

*How long will it take?* It is normally done over a weekend - you send your file on lunchtime Friday and we will return it to you by Monday morning

*Is it reliable?* Yes, the old file closing balances are reflected in the new file. Your accountant will be satisfied with the continuation.

*What version of QuickBooks must I be on?* Version 7.4 or newer

*I have memorised reports—can I keep them?* Yes, these can be put into the new file

*Can I keep my customised invoice template?* Yes!

*My preferences are important - can I keep them?* Yes - the admin preferences will be set to match
